## Our Mission

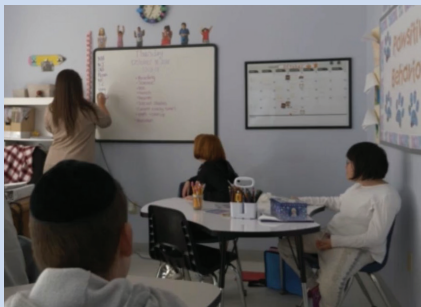

Latham Centers' mission is to create opportunities for independence, self-worth, and happiness for children and adults with complex special needs.

## Our Story

Latham Centers is a leader in special education and residential treatment for children and adults with disabilities, creating brighter futures since 1970. We work together with our students, residents, their families, and outstanding professionals to bring hope and change to our young people and adults with Prader-Willi syndrome (PWS) and complex special needs. Our programs include a therapeutic residential school in Brewster and a residential program for adults throughout Cape Cod and Southeastern Massachusetts.

Our human service organization works with children and adults with intellectual and developmental disabilities.

Latham Centers is internationally renowned for its expertise and success in working with individuals with PWS, a rare genetic disorder with no known cure.

## Our Team

Latham Centers employs approximately 260 year-round staff members, including direct care counselors, nurses, clinicians, teachers, and support staff. ## Why Latham?

### ***Staff member:***

"I have always wanted to help people. A friend told me about Latham. It sounded like really meaningful work, and I knew my education and interest in working in the human services field would be a good match."

### ***Sibling of adult resident:***

"We chose Latham because it was a leader in the treatment of PWS...my sister entered Latham School in 2008 and graduated to the Adult Residential Program in 2012. Latham changed her life in ways we never could have imagined."
